### ABOUT

---

Full Stack Developer with 3 years of experience, responsible for creating software for over 50,000 active users, positively impacting the public education network in my city. Strong experience in Ruby on Rails and VueJS. I combine creativity and technical knowledge to develop innovative solutions that generate value, always striving to deeply understand the technologies I use.

### PROFESSIONAL EXPERIENCE

---

#### KPMG

##### Software Developer

São Paulo - SP

04/2025 - Actual

I am responsible for the maintenance and continuous development of a SaaS platform, using **Ruby on Rails, Elasticsearch, Docker, TDD, PostgreSQL, Sidekiq, among other technologies.**

#### AZ TECNOLOGIA

##### Software Developer

Campo Grande - MS

07/2024 - 02/2025

Developed solutions for a public procurement system used by over 50 public organizations, focusing on new features, strategic integrations, and performance optimization. I worked on developing new features, interfaces, and services in agile cycles, collaborating with the team for better performance.

#### Highlights

- **BackEnd Development:**
  - Developed over 25 new features in a microservices architecture, ensuring scalability and efficient integration, using technologies like Java, Spring Boot, VueJs, Redis, MongoDB, RabbitMQ, and Docker.
- **FrontEnd Development:**
  - Created and maintained responsive interfaces, improving usability for suppliers and public servants.
- **Performance Improvement:**
  - Optimized several system routines, including HTTP calls and caching, reducing resource consumption by 40% and speeding up critical requests by 60%.
- **Integrations:**
  - Implemented essential integrations for system usability, adding more value to the product and improving usability for suppliers and public servants.

#### CAST GROUP

##### Software Developer

Campo Grande - MS

05/2023-07/2024

Developed new projects and maintained legacy systems, using Java, Spring Boot, Jersey, ZK, PostgreSQL, AngularJS, and Vue.js.

#### Highlights

- **Maintenance and Modernization:**
  - Maintained and evolved over 5 legacy systems, fixing critical bugs and implementing new features.
- **High-Impact Project:**
  - Contributed to the development of a system used by over 50,000 users in schools and education departments, providing features for academic and administrative planning and management.
- **Technological Migration:**
  - Proposed and implemented the refactoring of a legacy system to Java 21, Spring Boot, and VueJs, with the aim of modernizing the architecture, workflows, and increasing efficiency and scalability.
- **Best Practices:**
  - Implemented unit tests and code reviews, improving software quality and stability.

## FREELANCE DEVELOPER

### Software Developer

Remote

05/2022 - Present

Developing scalable and efficient web applications using Ruby on Rails, PostgreSQL, and Vue.js, focused on process automation and business optimization.

#### Highlights

- **Restaurant Management:**
  - Developed a management software for restaurants and snack bars, automating order processes, inventory control, and sales, resulting in reduced operational errors and increased service efficiency.
- **Production Management:**
  - Developed software for managing a clothing and uniform factory, integrating production control and raw material management, optimizing productivity, and reducing waste.
- **ERP and CRM:**
  - Contributed to the development of ERP software for centralizing business processes and CRM for optimizing client acquisition and retention, with marketing automations and strategic tracking.
- **Best Practices:**
  - Developed high-performance, intuitive solutions with a strong focus on delivering practical results for businesses.

## EDUCATION

UNIVERSIDADE PARA O DESENVOLVIMENTO DO ESTADO E DA REGIÃO DO PANTANAL

*Bachelor's Degree in Computer Science (GPA 3.8)*

Campo Grande - MS

2021-2025

## ADDITIONAL INFORMATION
